Details for Submissions

The committee welcomes submissions from the U.S. as well as International proposals.

Panel and Workshop Chairs - You will create an overall proposal for your session. Once your participants have been added to the proposal, they will receive an automated notification to complete their abstract details. Your proposal is NOT complete until all participants have submitted their abstract details.

Panel and Workshop Participants - Once your session Chair has created the overall proposal, you will receive a notification email to complete your abstract details. Please do not create an individual submission.

Poster and Individual Research Report Submitters - Both of these submissions are created under the same submission type. Once the proposal is created, you will be given the opportunity to choose which type of submission for your abstract.

New Investigator Award Applicants - These travel awards are specifically designed for individuals who are new to the field and have not been the Principal Investigator on an R01 grant. The NIA participant will also have the opportunity to present a poster presentation. Your application will be submitted under the "Poster/Individual Research Report" Submission.

Pharmaceutical Pipeline Submitters - Your application will be submitted under the "Pharmaceutical Pipeline" submission type. A Pharmaceutical Pipeline report will be a 10 minute presentation and will also have the opportunity to present their research as a poster presentation. A Pharmaceutical Pipeline submission should include those with early clinical data (Phase 1 and 2) on any CNS compound for which Phase 3 data had not been presented. The goal was to generate enthusiasm for the many novel compounds under exploration, most of which have not reached Phase 3. This is not to exclude presentations of clinical data on compounds currently in Phase 3 targeted to truly untested mechanisms since such data would also be of great interest.

If you have any questions concerning your abstract submission, please contact info@ascpp.org.

<u>Rules regarding Conflict of Interest</u>

The Accreditation Council for Continuing Medical Education (ACCME) requires that The American Society of Clinical Psychopharmacology, Inc., obtain the disclosure from any individual who is in a position to influence or control the content of an accredited activity of any financial interest or other relationship with a commercial interest which is any entity who produces, markets, re-sells or distributes health care goods or services consumed by, or used on, patients. This includes planners, faculty members, and authors. ACCME defines "relevant" financial relationships as "financial relationships in any amount occurring within the past 12 months that create a conflict of interest".

Although ASCP does not consider that such relevant financial relationships necessarily give rise to bias or unbalance, it is the policy of ASCP that any such relationships be identified to the audience prior to commencement of the program. In addition, it is the policy of ASCP to resolve all conflicts of interest prior to the CME activity as per ACCME guidelines.

Each faculty member or author will be asked to send to the planning committee (depending on the particular meeting) a detailed abstract, and/or the paper to be presented, and/or the slides to be presented. Each abstract, paper, or slide set will be reviewed by the planning committee for content, presentation, and bias, in light of the faculty member's or author's relevant financial relationships. Changes to achieve scientific integrity and lack of bias may be required of the faculty member or author prior to the presentation.

EACH PLANNER, FACULTY MEMBER, AUTHOR MUST COMPLETE AND RETURN A DISCLOSURE STATEMENT. The form is included electronically in the submission online and also available on the website at: http://ascpmeeting.org/scientific-program/submit-an-abstract/.
