Research Project

Completed research and research in progress may be submitted. The 350-word abstract must include the title, headings, and the following key elements:

- **Purpose and Background/Significance:** State the purpose of the study and why it is important to nursing science, practice and/or patient care.
- **Theoretical/ conceptual framework:** Include conceptual and operational definitions.
- **Method:** Describe the study design, sample, instruments used, and data collection procedures (Include proposed data collection and analysis if project is not complete).
- **Results:** Discuss findings within the context of prior research, conceptual framework, and study limitations.
- **Conclusions:** Explain what the findings mean for the science of nursing.

Please note that graphs, charts, or images are not permitted.

Evidence Based/Quality Improvement Project

The 350-word abstract must include the title, headings, and the following key elements:

- **Nature and scope of the project**: (introduction, problem identification, significance, project objectives).
- **Synthesis and analysis of supporting literature**: Describe the evidence-based solution. How was it developed? Include the theoretical framework if applicable.
- **Project implementation:** Describe the implementation process and significant challenges encountered. Include plans for implementation if the project is not complete.
- **Evaluation criteria:** Provide details of your method for evaluating the success of the project. Include proposed evaluation criteria if the project is not complete.
- **Outcomes:** What were the outcomes of the project? How were the outcomes measured?
- **Recommendations:** Describe your recommendations for clinical practice and policy based on the outcomes of the evidence-based practice project.

Please note that graphs, charts, or images are not permitted.

Literature Review

The 350-word abstract must include the title, headings, and the following key elements:

- **Problem:** Describe the health care issue the evidence review addresses. Provide support for the significance of the problem
- **Purpose:** State the objectives of this inquiry relative to the overall evidence-based literature review on this topic
- **Search Strategy:** identify databases searched, inclusion/exclusion criteria
- **Results of literature search:** Describe the search, number of studies included and level of evidence. Include a summary table of your evidence in the poster
- **Synthesis of Evidence:** Briefly describe the synthesis of the evidence that includes major trends and notable gaps
- **Implications for Practice:** Include your recommendations for practice, education, or future research based on the review and synthesis of the evidence
  Please note that graphs, charts, or images are not permitted.
