# ABOUT MPA

The Molecular Psychiatry Association was founded in 2013 to promote research and communication of research findings that may lead to a better understanding of the molecular basis of psychiatric disorders and the development of new treatments. Various research approaches are being applied including neurobiology, genetics, brain imaging, biomarkers, brain expression, neural stem cells, and animal models. The primary mission of the association is to hold a scientific meeting that is open to all professionals who are interested in the molecular foundations of psychiatric disorders. By bringing together investigators with expertise in various molecular approaches, cross-fertilization and collaborations will take place that will enhance research and improve understanding of the molecular basis of psychiatric disorders.

The society is affiliated with the journal, *Complex Psychiatry*.

# HOW YOU CAN HELP

## YOUNG INVESTIGATOR TRAVEL AWARD

Two types of travel awards are offered: (1) one for graduate or medical students who are currently enrolled in PhD, MD, or MD/PhD programs and (2) for postdoctoral fellows/medical residents/junior faculty. Awards for both types are for \$1,500. Approximately 15 awards will be made. Funds received from generous donors help make it possible for young investigators to attend the meeting and enhance their molecular psychiatry research.

## NEW OPTIONS FOR SPONSORS

### BREAKFAST SPONSOR (3 OPPORTUNITIES)

Your organization will be recognized as the sponsor on signage at one of the breakfasts.

\$10,000

### POSTER RECEPTION SPONSOR

Your organization will be recognized as the sponsor on signage at the poster reception. Attendees will thank you for all of the fun!

\$8,000

### BUSINESS MEETING LUNCHEON SPONSOR

Your organization will be recognized as the sponsor on signage at the lunch provided during the MPA business meeting.

\$7,000
