Submission Details

Request for Proposals *

- Does your proposed session respond to an RFP category?
  - Yes
  - No

RFP Categories *

- Making sense of molecules: connecting molecules to dynamic systems and symptoms
- Preventative psychiatry: research paradigms and laboratory based models
- Beyond ketamine: mechanisms of hallucinogens and other fast-acting treatments for treatment of depression and anxiety
- Nutrition, meditation, DSD, TMS, ECT and other non-pharmacological approaches to treatment
- Dynamic measures of connectivity: combining fMRI and other imaging modalities

Presenter Affiliations *

- Are all presenters listed in your proposal from the same institution?
  - Yes
  - No

Attestation and Affirmation *

I hereby acknowledge my intention to participate in a Panel at the American College of Neuropsychopharmacology 2014 Annual Meeting and will be available for the entirety of the Meeting.

- I also affirm that all experimental protocols in animal studies were approved by the Institutional Animal Care and Use Committee and were conducted in accordance with the National Institutes of Health Guide for the Care and Use of Laboratory Animals, or by the applicable requirements of my institution.
- I have read and understand the ACNP Press Release Policy.
- I agree to reveal the structure of a compound or gene if it is mentioned in my abstract.
- I acknowledge that I have submitted my name no more than once as a speaker for all submitted panel and mini-panel proposals. I acknowledge that I have submitted my name no more than twice for roles on all submitted panel and mini-panel proposals.

Note: You may update your signature in your User Profile. Click on ‘Return to Home Page’ above, and then go to ‘Still Profile’ in the top-right corner of the Home Page.

Overall Panel Abstract *

Please provide a description of the panel in less than 2000 characters.

Unique Data *

Describe the unique data that will be presented during your proposed session. Please specify what is new and unpublished data in your proposal. Also please note that it will be important for individual presenters to include quantification of their results, including key statistical tests and sample sizes, within the results sections of their abstracts. (character limit: 950 not including spaces)

950 of 950 characters remaining

Keywords *

Please select at least 3 and up to 5 keywords that best describe your abstract.

Search for keywords to be added. If keyword is not found, then enter directly in the table below.

As a presenter, please complete the following fields.

2. Attestation and Affirmation *
   - By signing below, I hereby acknowledge my intention to participate in a mini panel at the 2018 ACNP Annual Meeting. Further, I agree to be available for the entirety of the meeting.
   - I affirm that all experimental protocols in animal studies were approved by the Institutional Animal Care and Use Committee and were conducted in accordance with the National Institutes of Health Guide for the Care and Use of Laboratory Animals, or by the applicable requirements of my institution.
   - I also affirm that all research protocols involving human subjects were conducted in accordance with the ethical standards of the responsible committee on human experimentation (institutional or regional), or with the Helsinki Declaration of 1975 (as revised in 1983), and were approved by an Institutional Review Board.
   - I have read and understand the ACNP Press Release Policy.
   - I agree to abide by the Principles of Scientific Conduct.
   - I agree to reveal the structure of a compound or gene if it is mentioned in my abstract.

3. I agree and affirm.

4. Background *
   - Please enter the background section of your abstract.

5. Methods *
   - Please enter the methods section of your abstract. Where relevant, mention sample sizes included in the study (a range is acceptable if multiple studies are included) and the statistical analysis adopted for these studies. Also indicate whether one or both sexes were included in these studies.

6. Results *
   - Please enter the results section of your abstract. In addition to any qualitative descriptions, please provide statistical significance or effect size for at least some of the main findings included.

7. Conclusions *
   - Please enter the conclusions section of your abstract.

8. Unique Data *
   - Please specify what is new and unpublished data in your proposal.

9. Keywords *
   - Please select at least 3 and up to 5 keywords that best describe your abstract.
