

Millie Rincón-Cortés, Ph.D.
Assistant Professor, University of Texas at Dallas
ACNP Associate Member

This year marks 10 years since Dr. Millie Rincón-Cortés first joined ACNP as a postdoctoral trainee. Over the past decade, she has been deeply engaged in the College, contributing to numerous committees and leadership roles, including:

- Associate Member on Council (2024–2026)
- Chair, Hispanic/Latin-American Sub-Committee (2024)
- Co-Chair, Diversity & Inclusion Committee (2024)
- Chair, Experience and Resilience Committee (2025)

Her extensive service reflects her ongoing commitment to advancing ACNP's mission of scientific excellence, inclusivity, and mentorship.

During her time as a postdoctoral trainee, Dr. Rincón-Cortés was featured on the Stories of WIN podcast (2019), where she spoke about her journey as a first-generation scientist and Latina neuroscientist. In the interview, she shared her resilience in overcoming challenges and her passion for mentoring and making science more accessible to minorities. [Listen here!](#)

Most recently, she received a NIA-supported award from the Animal Models for the Social Dimensions of Health and Aging Research Network, launching an exciting new line of research on early life adversity and neuroimmune aging.

When reflecting on her ACNP journey, Dr. Rincón-Cortés notes how meaningful it has been to grow within the College community—from receiving an ACNP Travel Award in 2017 to serving today in multiple leadership roles.

We are proud to spotlight Dr. Rincón-Cortés for her service, scholarship, and dedication to building a more inclusive and resilient neuroscience community.

Benjamin Suarez-Jimenez, Ph.D.
Hispanic/Latin-American Subcommittee, chair
