The committee welcomes submissions from the U.S. as well as international proposals.

- **Panel and Workshop Chairs** - You will create an overall proposal for your session. A Pharmaceutical Pipeline submission should include those with early clinical data (Phase 1 and 2) on any CNS compound for which Phase 3 data had not been presented. The goal is to generate enthusiasm for the many novel compounds under exploration, most of which have not reached Phase 3. This is not to exclude presentations of clinical data on compounds currently in Phase 3 targeted to truly unmet mechanisms since such data would also be of great interest. **DEADLINE: February 20, 2024**
- **Donald Klein Lifetime Achievement Award** - The Donald Klein Lifetime Achievement Award is given to a recipient who has made an outstanding contribution to the Clinical Psychopharmacology field. Any scientist, clinician or outstanding ASCP member may nominate an individual for this award by submitting the following to the Awards Committee. The top five sponsored papers from 2022 will also be included in the nomination. **DEADLINE: January 29, 2024**

Financial Relationships

Definition of Financial Relationship--

Financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria for promotional speakers' bureau, ownership interest (e.g. stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, owner, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received, or expected.

Contracted research includes research funding where the institution gets the grant and manages the fund and the person is the principal or named investigator on the grant.

There is no minimum dollar amount for relationships.

Definition of Ineligible Company--

An *ineligible company* is any entity producing, marketing, selling, re-selling, or distributing healthcare products or services consumed by, or used on, patients. Providers of clinical service directly to patients are not ineligible companies (unless the provider of clinical service is owned, or controlled, by an ineligible company).

Rules regarding Conflict of Interest

The Accreditation Council for Continuing Medical Education (ACCME) requires that The American Society of Clinical Psychopharmacology, Inc., obtain the disclosure from any individual who is in a position to influence or control the content of an accredited activity of any financial interest or other relationship with a commercial interest which is any entity who produces, markets, re-sells or distributes health care goods or services consumed by, or used on, patients. This includes planners, faculty members, and authors. ACCME defines “relevant” financial relationships as “financial relationships in any amount occurring within the past 24 months that create a conflict of interest”.

Although ASCP does not consider that such relevant financial relationships necessarily give rise to bias or unbalance, it is the policy of ASCP that any such relationships be identified to the audience prior to commencement of the program. In addition, it is the policy of ASCP to resolve all conflicts of interest prior to the CME activity as per ACCME guidelines.

Each faculty member or author will be asked to send to the planning committee (depending on the particular meeting) a detailed abstract, and/or the paper to be presented, and/or the slides to be presented. Each abstract, paper, or slide set will be reviewed by the planning committee for content, presentation, and bias, in light of the faculty member’s or author’s relevant financial relationships. Changes to achieve scientific integrity and lack of bias may be required of the faculty member or author prior to the presentation.

EACH PLANNER, FACULTY MEMBER, AUTHOR MUST COMPLETE AND RETURN A DISCLOSURE STATEMENT. The form is included electronically in the submission online and also available on the website at:

<https://ascpp.org/submitanabstract/> .
