

## CALL FOR PROPOSALS

You are invited to participate in the Annual Meeting of the American Society of Clinical Psychopharmacology (ASCP) to be held at the Fairmont Scottsdale Princess on May 27 – 30, 2025, by submitting a proposal and attending the meeting. The committee welcomes submissions from the U.S. as well as international proposals, and this year the committee strongly encourages the composition of panels and workshops that include women, under-represented minorities and early career scientists and clinicians.

This year's meeting theme is

### ***Navigating the Evolution of Clinical Psychiatry: When is Newer Better?***

We have entered a period of novel treatments entering our therapeutic pipeline and with several more on the horizon, including novel pharmacological, neuromodulation, and digital health interventions. The Program Committee for the Annual Meeting is particularly interested in proposals addressing how as researchers, clinicians and educators we can identify when, how, and for whom these new therapeutic options are effective.

**The Program Committee for the Annual Meeting also welcomes proposals addressing the full range of clinical psychiatry research and practice, including but not limited to the topics below:**

- Behavioral and Physical Health Impact of Life in a High Stress Environment (e.g., War Zone) (Different than PTSD)
- Clinical Informatics in Psychiatry or Mental Health
- COVID-19
- Cutting Edge Treatments
- Digital Measurements and Therapeutics
- Dissemination Including Integrating Education to Expand the Knowledge Base
- Emerging Biological Models of Psychiatric Illness
- Global Mental Health and Drug Development
- Integrating IT Learning Systems to Guide Implementation of New Knowledge in Clinical Practice
- Integrating New and Novel Treatments into Clinical Practice and Education
- Keeping Clinical and Educational Efforts in Pace with Novel and Global Drug Developments
- LGBTQ+
- Matching Effective Treatments to People Who Need Them
- Neuromodulation
- Neuroscience Informed Treatments
- Precision in Companion Diagnostics with Biomarkers and Clinical Markers, Including Digital AI Approaches
- Psychedelics
- Psychiatric Disorders Across the Lifespan
- Psychiatry Burnout
- Psychopharmacology and Psychotherapy
- Psychopharmacology Education
- Rural Mental Health
- Systematic Evidence Reviews
- Telepsychiatry
- The Use of Psychedelics and Other Compounds as Adjuvants to Psychotherapy
- Where New Treatments and New Drug Developments Fit into Current Practice

## 2025 Submission Deadlines:

Workshops and Panels Proposals:	Wednesday, November 6, 2024
New Investigator Awards:	Wednesday, January 29, 2025
Posters:	Wednesday, January 29, 2025
Individual Research Reports:	Wednesday, January 29, 2025
Pharmaceutical Pipeline Presentations:	Thursday, February 20, 2025
Late-Breaking Posters	Friday, March 28, 2025

The ASCP Annual Meeting brings together over 800 representatives from academia, the [National Institutes of Health \(NIH\)](#), [Food and Drug Administration \(FDA\)](#), European regulatory agencies and industry, including competitively selected New Investigator awardees. In recent years, the ASCP Annual Meeting focus has been expanded to address a number of timely issues relevant to clinical research in psychiatry, including the translation of research into practice, the importance of regulatory issues, and pharmacogenetics and other means to personalizing interventions. A Program Committee for the Annual Meeting chaired by Drs. Mark Rapaport and Tiffany Farchione with representation of the sectors that are part of the ASCP community lead the direction of the meeting.

**Registration will open in December 2024. Visit <https://ascp.societyconference.com/v2/> for registration and housing.**
