

## PHYSICIAN SCIENTIST – ASSISTANT/ASSOCIATE PROFESSOR

The **Maryland Psychiatric Research Center (MPRC)**, an internationally recognized leader in schizophrenia research and treatment, is seeking a full-time **physician scientist** with a focus on translational research in schizophrenia spectrum disorders.

This faculty position offers an exceptional opportunity to lead innovative, bench-to-clinic research in a collaborative, multidisciplinary environment. Candidates with interests in **early phase psychosis, metabolic psychiatry, negative symptoms**, or other emerging areas of psychiatric research are strongly encouraged to apply.

### Preferred Research Strengths

- Human post-mortem studies
- Advanced neuroimaging including magnetic resonance techniques
- Neuromodulation methods such as Transcranial Magnetic Stimulation (TMS)
- Computational modeling and high-dimensional data analytics

### Our Research Environment

Faculty benefit from a collaborative, highly supportive structure for ensuring extramural funding success. MPRC offers access to state-of-the-art resources, including:

MPRC Magnetic Resonance Center • [Maryland Brain Collection](#) • Neuromodulation Labs • Clinical Trials Infrastructure • Basic Science Facilities • Biobanking Resources

UMB offers competitive compensation and a comprehensive [benefits package](#) that prioritizes wellness, work/life balance, and professional development.

Expected Salary Range: \$230,000 to \$300,000 (see [full posting](#) for details).

### Required Qualifications

- MD or DO (or foreign equivalent)
- Board certified or board eligible in Psychiatry
- Eligible for unrestricted Maryland medical licensure and CDS registration
- Demonstrated research productivity and potential to secure extramural funding
