

VIRTUAL POSTER GUIDELINES

IASR will encourage conference attendees to browse the e-posters during the Poster Sessions. Attendees will be able to view your poster, leave a question or comment, or join your video chat by clicking a video icon (if you provide a teleconference link) on the e-poster image within the e-poster gallery. Please make sure you have your personal video chat room open at the start of your poster session. [CLICK HERE to access the e-Poster navigation guide to see how the information you input in the e-poster submission will reflect on your poster in the online poster gallery.](#)

As a poster presenter, you will be required to upload the below items:

1. **Upload your e-poster to the e-poster gallery by Friday October 15th** using the links and instructions below.
 - a. Available file types to upload include: PNG, JPG, JPEG, or GIF. *High-quality JPG or PNG files work best and will not reduce image quality.*
 - b. *The optimum size for the image file is 3000 x 2000 pixels and a maximum of 1 MB in file size.*
 - c. Landscape layout is recommended, as most computer screens are widescreen. Images will be interactive and allow the user to zoom in/out.
2. **Upload an audio recording of a 1-3 minute presentation summary of your poster.** If an audio file is uploaded, when attendees view your e-poster they will be able to listen to your audio presentation.
 - a. This must be in a .mp3 or .AAV file format and cannot exceed 8 MB
 - b. To audio record your presentation, you can utilize an online audio recording site (example: <https://online-voice-recorder.com/>) or use a voice recording app on your smart phone then upload the file.

3. **Provide a web-link to join your personal Zoom meeting room** (or other preferred method of video conferencing connection such as GoToMeeting, WebEx, Microsoft Teams, etc.) Please be sure to test your link before saving and submitting. It must be a clickable URL link.
4. **Upload a supplemental document to your main poster image (optional).** *Note: if uploaded, attendees can download the file types in PDF form.*
 - a. Available file types to upload include: PDF or PPT.

e-Poster Upload

All poster presenters are required to have their e-Posters uploaded to the site by **October 15th**. *Note that it takes up to 24 hours after uploading for it to show in the gallery.* Attendees will gain access to the virtual conference hall on October 18th and can start browsing posters at that time.

The E-poster site offers presenters the opportunity to share their work online using high quality graphics, and also allows meeting attendees to browse through a gallery of posters that are being presented. The E-poster site has been developed with security in mind, protecting against downloading, copying, or printing of your work. E-poster viewing will only be accessible to registered 2021 conference attendees. [Click this link](#) to upload your e-Poster or click the below blue button (this will be on your [submission dashboard](#)).

All poster presenters are required to have their e-posters uploaded to the site by **October 15th.** Registered IASR/AFSP attendees will be able to view the E-posters prior to the meeting and viewing will remain open until 30 days post-conference.

If you have questions regarding your presentation, please contact Kara Moeller at kmoeller@parthenonmgmt.com.
