APOS 2022
19TH ANNUAL
CONFERENCE
MOVING FORWARD TOGETHER:
ACHIEVING EQUITY IN
PSYCHOSOCIAL ONCOLOGY
Dear Colleagues, Friends, and New Partners,

We would like to extend a warm welcome to the APOS 2022 Virtual Conference!

We have an interactive and dynamic conference experience in store for you this year, centered around the theme of health equity. We hope that our new virtual program offerings will ensure that all of you have the chance to learn about innovations in the science and practice of psychosocial oncology, have ample opportunities for networking, and can engage with community partners and junior scholars in the field of health equity.

Highlights of this year’s conference include:
- Four dynamic plenary sessions covering national and international approaches to achieve cancer health equity, as well as personal experiences with psychosocial oncology
- Recognition of the innovative work of the APOS Health Equity Scholars and introduction of a new class of awardees
- Exciting networking opportunities at our Virtual Poster Session and Noontime(ish) Knowledge
- An enhanced Virtual Exhibit Hall with opportunities for live interaction with our valued sponsors and exhibitors
- Focused sessions to support Early Career Professionals, including the Early Career Networking session
- Video vignettes from our Community Partner Spotlights introducing efforts to increase the reach of mental health and cancer care and psycho-oncology in the community
- Interactive sessions focused on self-care including a Decompression Session, Virtual Yoga and presentations on Distress and Well-Being among psychosocial oncology professionals

We sincerely appreciate your support of APOS and look forward to seeing you all (virtually) at the conference!

Sincerely,

Charles Kamen, PhD, MPH

JOIN THE CONVERSATION

Did you know that APOS is more than an annual conference? From webinars to relevant articles, we're your go to place for all things psychosocial oncology. APOS is not just a membership-based society, it's a community and one that you're a valuable part of. Stay in the know, be part of the conversation and let's stay connected!

#APOS2022
Thank you to our sponsors!
When you make a commitment to achieve accreditation, you make a promise to deliver the very best care for cancer patients.

When you make a commitment to excellence, you make a promise to patients.

Commit to excellence in cancer care. Achieve accreditation.

Learn how your cancer program can become accredited.

THIS IS LIVING WITH CANCER™

This Is Living With Cancer™ is a program for people living with cancer and those who love them. We provide support and resources for all, regardless of age, income, race, location, tumor type, stage of disease or whether you’re on a Pfizer treatment.

Cancer screenings and follow-ups can’t wait
Cancer doesn’t take breaks. Download tools and resources to help guide conversations with your doctor.

Nutrition, exercise and wellness tips
Get tips from oncology dietitians and fitness experts, and find resources to help you manage your mental health.

Resources for adults 65+ and their loved ones
Find encouragement, education and tools to help you become your best advocate.

Support designed with you in mind
Sharpen your goal planning, stress management and communication skills.

Find tools to help live life beyond your diagnosis at ThisIsLivingWithCancer.com

What is Noonetime(ish) Knowledge?

APOS is excited to bring back the ever-popular Noonetime(ish) Knowledge: Intentional and Relevant Roundtable Discussions. Roundtables will be lead by two–three facilitators who will lead a guided Q&A discussion to answer pressing questions from attendees.

How will it work virtually?

Noontime(ish) Knowledge will be held in a zoom meeting room with each "table" being a breakout room. The breakout rooms will be named by topic.

Can anyone attend?

We will send a registration link the week of the conference! All attendees are welcome.
Donate Today!

The things we plant today will produce the Future of Psychosocial Oncology. APOS offers a variety of initiatives for your charitable giving. Join the giving movement and consider giving to APOS today!

Conference Objectives

After attending the 2022 Conference participants will be able to:

• Define priority areas to include research, practice, training, and advocacy endeavors that support equity in psychosocial oncology as related to age, race, ethnicity, religion, culture, language, disability, socioeconomic status, sexual orientation, gender identity and/or expression.

• Define research, practice, and training priorities for the field of psychosocial oncology that reflect advancement and innovation in cancer care, with a special interest in implementation science efforts to enhance reach and impact.

• Demonstrate how psychosocial oncology researchers, practitioners, advocates and policy makers leverage principles of innovation and its associated tools to advance the field - including (but not limited to) technology, data-driven metrics, emerging care delivery models, multi-disciplinary training programs.

• Present evidence of the impact of psychosocial oncology to overall cancer care using metrics that may include cost-effectiveness, medical outcomes, psychosocial outcomes, patient and community satisfaction, provider satisfaction, and training outcomes.

• Describe innovative models of psychosocial oncology care delivery that promote integration and adoption of scientific, evidence-based findings into clinical practice, training programs, and policy.
Continuing Education

Satisfactory Completion
Learners must complete an evaluation form to receive a certificate of completion. Your chosen sessions must be attended in their entirety. Partial credit of individual sessions is not available. If you are seeking continuing education credit for a specialty not listed below, it is your responsibility to contact your licensing/certification board to determine course eligibility for your licensing/certification requirement.

Accreditation Statement
In support of improving patient care, this activity has been planned and implemented by Amedco LLC and American Psychosocial Oncology Society. Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Physicians (ACCME) Credit Designation
Amedco LLC designates this live virtual activity for a maximum of 14.50 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses (ANCC) Credit Designation
Amedco LLC designates this activity for a maximum of 14.50 ANCC contact hours.

Psychologists (APA) Credit Designation
Amedco LLC designates this activity for a maximum of 14.50 psychologist contact hours.

The following state boards accept courses from APA providers for Counselors: AK, AL, AR, AZ, CA, CO, CT, DC, DE, FL, GA, HI, IA, ID, IL, IN, KS, KY, MD, ME, MO, NC, ND, NH, NE, NJ, NM, NV, OK, OR, PA, RI, SC, SD, TN, TX, UT, VA, WI, WY
MI: No CE requirements

The following state boards accept courses from APA providers for MFTs: AK, AR, AZ, CA, CO, CT, DE, FL, GA, IA, ID, IN, KS, MD, ME, MO, NE, NC, NH, NJ, NM, NV, OK, OR, PA, RI, SC, SD, TN, TX, UT, VA, WA, WI, WY

The following state boards accept courses from APA providers for Addictions Professionals: AK, AR, CO, CT, DC, DE, GA, IA, IN, KS, LA, MD, MO, MT, NC, ND, NE, NJ, NM, NY (outstate held)*, OK, OR, SC, UT, WA, WI, WY
MA / MFTs: Participants can self-submit courses not approved by the MAMFT board for review.

The following state boards accept courses from APA providers for Social Workers: AK, AR, AZ, CA, CO, DE, FL, GA, ID, IN, KY, ME, MN, MO, NE, NH, NM, OR, PA, VT, WI, WY

* If the activity is held live in the state of NY, then direct addictions board is required, ie: NAADAC. If the activity is held outside NY, is virtual, enduring or remote, it is considered "outstate" and this reciprocity applies.
Continuing Education

Social Workers (ASWB) Credit Designation
As a Jointly Accredited Organization, Amedco is approved to offer social work continuing education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved under this program. State and provincial regulatory boards have the final authority to determine whether an individual course may be accepted for continuing education credit. Amedco maintains responsibility for this course. Social workers completing this course receive 14.50 GENERAL continuing education credits.

The following state boards accept courses offering ASWB ACE credit for Social Workers: AK, AL, AR, AZ, CA, CO, CT, DC, DE, FL, GA, HI, ID, IL, IN, IA, KS, KY, LA, ME, MD, MA, MI, MN, MS, MO, MT, NC, ND, NE, NH, NM, NV, OH, OK, OR, PA, RI, SC, SD, TN, TX, UT, VT, VA, WA, WI, WV, WY

* WV accepts ASWB ACE unless activity is in live in West Virginia then an application is required.

The following state boards accept courses offering ASWB ACE credit for Counselors: AK, AR, AZ, CA, CO, CT, DC, FL, GA, IA, ID, IL, IN, KS, MA, MD, ME, MO, ND, NE, NM, NH, NV, OK, PA, TN, TX, UT, VA, WI, WV

AL / Counselors: Activities not providing NBCC approval may be approved by the Board for individual licensees upon receipt of acceptable documentation prior to the activity. Please send course details to your licensing board for approval BEFORE the event. No approvals afterward by the board.

The following state boards accept courses offering ASWB ACE credit for MFTs: AK, AR, AZ, CA, CO, FL, IA, ID, IN, KS, MD, ME, MO, NC, NE, NH, NM, NV, OK, PA, RI, TN, TX, UT, VA, WI, WY

MA / MFTs: Participants can self-submit courses not approved by the MAMFT board for review.

The following state boards accept courses offering ASWB ACE credit for Addictions Professionals: AK, CA, CO, CT, GA, IA, IN, KS, LA, MO, MT, ND, NM, NV, OK, OR, SC, WA, WI, WV, WY

William E. Rosa, PhD, Memorial Sloan Kettering Cancer Center
Celeste Vaughan-Briggs, LCSW, Thomas Jefferson University Hospital
Lori Wiener, PhD, National Cancer Institute
Amy Y. Zhang, PhD, Case Western Reserve University
Dr. Roth is an Attending Psychiatrist at Memorial Sloan Kettering Cancer Center (MSKCC) and a Professor of Clinical Psychiatry at Weill Cornell Medical College. Dr. Roth has been the Psychiatry liaison to the Prostate Cancer and Genitourinary Medical Oncology Program at MSKCC for the last 28 years and was the Training Director of the MSKCC/New York Presbyterian Weill Cornell ACGME accredited Fellowship in Psychosomatic Medicine/Psycho-Oncology for 12 years. Dr. Roth’s research includes the development of the Distress Thermometer; the creation of the Memorial Anxiety Scale for Prostate Cancer; a National Cancer Institute funded double blind randomized control trial using methylphenidate for fatigue in men with prostate cancer; and most recently testing a novel psychotherapy designed specifically for older cancer patients.

He has published extensively on various topics in Psycho-Oncology and is the author of Managing Prostate Cancer: A Guide for Living Better (Oxford University Press 2015) and the recently published Psychopharmacology in Cancer Care: A Guide for Non-Prescribers and Prescribers (Oxford University Press, 2020).
Brad Zebrack, PhD, MSW, MPH is a Professor at the University of Michigan School of Social Work and member of the University of Michigan Rogel Cancer Center, Division of Cancer Control and Population Sciences. He is a fellow to the Society for Social Work and Research (SSWR), the American Psychosocial Oncology Society (APOS), and the Association for Oncology Social Work (AOSW). Dr. Zebrack has clinical social work experience in both pediatric and adult oncology. He also has been involved in the development and evaluation of peer support programs for adolescent and young adult cancer survivors. In 2017, Dr. Zebrack was awarded a Fulbright Scholarship for study in Australia, where he collaborated with colleagues to develop and evaluate supportive care services for adolescents and young adults affected by cancer. His research on quality of life and cancer survivorship over the past 25 years has been supported by the National Cancer Institute (K07, R03, R01), the Patient-Centered Outcomes Research Institute (PCORI), and HopeLab Inc. His current NCI-funded research involves the identification of functional genomic pathways through which social and psychological factors influence gene regulation and are associated with disparities in health outcomes for AYA cancer survivors. Dr. Zebrack is also a long-term survivor of Hodgkin lymphoma, diagnosed in 1985 at the age of 25. In 1988-1989, he and his wife Joanne embarked on and completed a one-year, 11,000-mile bicycle tour around the perimeter of the United States to promote cancer survivorship.
Cheryl Krauter, MFT is an Existential Humanistic psychotherapist with over 40 years of experience in the field of depth psychology and human consciousness. With her background in theater arts, working with performing artists, visual artists and creative people has inspired her. Her own cancer diagnosis brought her to her work with people who have been diagnosed with cancer and other life-threatening illnesses, their partners, family members, and caregivers. She has been present with clients from diagnosis, to survivorship/living with cancer, through end of life. She has published two books: Surviving the Storm: A Workbook for Telling Your Cancer Story (Oxford University Press 2017) and Psychosocial Care of Cancer Survivors: A Clinician’s Guide and Workbook for Providing Wholehearted Care (Oxford University Press 2018). Her book Odyssey of Ashes: A Memoir of Love, Loss, and Letting Go (She Writes Press 2021) was released on July 20, 2021. Her private practice is in Albany and San Francisco California with individuals, couples and groups.

Cheryl has been a part of the Women’s Cancer Resource Center community in Oakland, California, as a board member, a therapist in the Free Therapy Program, and has presented numerous workshops for WCRC, both for therapists, cancer patients, and caregivers. She is involved with the American Psychosocial Oncology Society, Northern California Group Psychotherapy Society and has presented for both organizations, she has presented for the Cancer Support Community in Walnut Creek and Los Angeles. She is the co-founder of Savvy Survivor – an online recourse for cancer survivors.
Karen L. Clark, MS is the Manager of Supportive Care Programs and Research Operations in the Department of Supportive Care Medicine at the City of Hope-National Medical Center. Clark has been with City of Hope since 2007. Her unique and pioneering contributions to the education, training and mentorship of psychosocial oncology professionals have transformed, and continue to transform, a more inclusive culture of cancer care nationally and internationally. Her focus is on the transmission of evidence-based clinical skills. Clark is also internationally recognized for her creation of first-of-its kind automated comprehensive biopsychosocial screening which was recognized by the Institute of Medicine as a model for the Country.

Clark has been a co-investigator and faculty on five NCI funded training grants: teaching health care professionals to build supportive care programs, comprehensive automated biopsychosocial screening programs and two cognitive behavioral skills training programs. Currently, Clark is the site PI on an NCI R25 training grant, Biopsychosocial Cancer Pain Management and Quality Improvement Skills Training. Clark also oversees the Applying Evidence-Based Supportive Care Skills in Real-World Practice program at City of Hope (sponsored by The Sheri and Les Biller Family Foundation and community of generous donors). Through these training programs over 6,000 health care professionals across the country and internationally have been trained in the field of psycho-social oncology.

Clark shares her work through national and international presentations and workshops, including APOS and IPOS. She has over 50 publications in peer-reviewed journals.
Dr. Sue Morris is a clinical psychologist specializing in adult mental health and bereavement with expertise in program development and medical education. Sue moved to the US in 2010 from Australia to join Dana-Farber Cancer Institute (DFCI) as the first Director of Bereavement Services. She is also the co-director of bereavement for Robert’s Program on Sudden Unexpected Death in Pediatrics at Boston Children’s Hospital.

Sue’s work in the field spans 25 years, and includes building a successful grief and loss practice in Sydney; developing courses about grief; hospice bereavement experience in the US; and the publication of two self-help books about grief in the UK. Early in her career, Sue became interested in grief and how little education and training clinicians receive about caring for the bereaved. At DFCI, Sue developed the bereavement service, adopting an education, guidance and support model. She has published about the experience of the bereaved and created educational materials for families and clinicians alike, in addition to developing group programs for both the adult and young adult populations. Working at DFCI has allowed her to combine her interests of writing about grief, supporting the bereaved, and educating clinicians about the nature of grief and how to take care of themselves.

Sue currently holds the position of Senior Psychologist at DFCI within the Department of Psychosocial Oncology and Palliative Care, and Assistant Professor at Harvard Medical School.
Congratulations!

The New Investigator Award
Kelly Irwin, MD, MPH

Kelly Irwin, MD MPH is a psychiatrist at the Massachusetts General Hospital Cancer Center, a health disparities researcher, and an Assistant Professor of Psychiatry at Harvard Medical School. Dr. Irwin is the founding director of the Collaborative Care and Community Engagement Program, a clinical and research initiative dedicated to achieving equity in cancer care for individuals with serious mental illness. Dr. Irwin’s clinical research program focuses on developing, testing, and scaling interventions to improve cancer outcomes for people affected by mental illness and their caregivers. Her work spans the continuum of cancer care and is grounded in community-engaged research principles. Her research has been funded by the American Cancer Society, the National Cancer Institute, and the Patient-Centered Outcomes Research Institute.

Her team successfully piloted Bridge, a person-centered collaborative care model for patients with serious mental illness and is now leading a randomized trial examining the impact of the Bridge model on cancer care. Dr. Irwin also co-founded the Engage Initiative, a stakeholder coalition with more than 800 members, which is dedicated to ensuring that mental illness is never a barrier to cancer care through person-centered research, clinical innovation, education, and advocacy. Dr. Irwin graduated from Harvard Medical School and the Harvard School of Public Health. Dr. Irwin is currently the Invited Director of Diversity, Equity, and Inclusion for the American Psychosocial Oncology Society.

Congratulations!
Congratulations!

APOS Fellows Class of 2022

Kristine A. Donovan, PhD, MBA

Dr. Donovan is a clinical psychologist and Senior Member in the Department of Supportive Care Medicine at Moffitt Cancer Center & Research Institute in Tampa, FL. She has an active clinical practice in psycho-oncology that complements and fortifies her research in the areas of symptom management and sexual health. Dr. Donovan was involved in early research establishing a cut-off score for clinically significant distress on the National Comprehensive Cancer Network (NCCN) Distress Thermometer (DT). She serves as Vice Chair of the panel for the NCCN Guidelines for Distress Management and recently co-chaired a subcommittee of panel members who updated and revised the DT Problem List. Dr. Donovan is the Immediate Past President of APOS. In her role as President, she co-chaired the Diversity, Equity & Inclusion (DEI) task force. This task force published APOS’s first statement addressing systemic racism and promoting DEI in the science and practice of psychosocial oncology.

Krista Nelson, LCSW OSW-C BCD FAOSW

Krista Nelson is trained as an oncology social worker and works in clinical & research roles within the Providence Cancer Institute and is a Program Manager in the Department of Compassion. This blend has allowed her to bring her clinical expertise to work with those impacted by cancer, and to creating supportive infusions of compassion to staff and providers within Providence Health & Services. Krista is the current President of the Association of Community Cancer Centers. Krista provides individual and group support for those affected with cancer and additionally has an expertise in facilitating online support groups. She also coordinates a program that focuses on the care of children who have a parent with cancer. Krista is a past President of the board of directors of the Association of Oncology Social Work and past Director of the American Psychosocial Oncology Society, National Accreditation Program for Breast Centers, & American Clinical Social Work Association. Krista was named as a finalist in the Schwartz Center Compassionate Caregiver of the Year award was awarded the American Cancer Society/Association of Oncology Social Work Leadership award in 2019 and Social Worker of the Year for Providence Health & Services in Oregon in 2021.

Krista also has been a volunteer facilitator at retreats for women with breast cancer and annually at camps and programs that support grieving children. She also has volunteered over 5 months on medical relief teams to Haiti since 2009 and locally, with Portland Street Medicine providing mental health support to the houseless in Portland, Oregon. In her free time, she enjoys hiking, biking, photography and cheering on her local soccer team, the Timbers!
Eliza (Leeza) M Park, MD, MSCR

I am an Assistant Professor of Psychiatry and Medicine and Deputy Director for the Comprehensive Cancer Support Program at the University of North Carolina (UNC) at Chapel Hill. I joined UNC faculty after completing clinical training in adult psychiatry and psychosomatic medicine (now called consultation-liaison psychiatry) at Harvard Longwood Psychiatry/Brigham and Women’s Hospital. I have been an active member of APOS since joining the organization in 2011. Together with Jon Levenson, MD, I co-created and led APOS’ Psychiatric Oncology Special Interest Group.

My clinical care and research focuses on the intersection of psychiatry, palliative medicine, and oncology. I maintain an active clinical practice focused on adults with advanced cancer. In addition, I developed and continue to supervise a longitudinal psycho-oncology teaching clinic for UNC’s consultation-liaison psychiatry fellowship. As a practicing psychiatrist who also conducts foundation and NIH-funded research, I seek to design and test psychosocial interventions that can be implemented into clinical practice. The overarching goal of my research is to reduce the psychological suffering associated with parental advanced cancer by identifying the unmet needs of these patients and their families and developing interventions to improve their mental health, quality of life, and end-of-life outcomes. I also study the bereavement needs and outcomes of their family members, and the psychosocial needs of cancer caregivers more broadly.

John Peteet, M.D.

After receiving his M.D. degree at Columbia University, he completed a medical internship at UNC in Chapel Hill, a residency in psychiatry at the Massachusetts Mental Health Center, and a fellowship at the Peter Bent Brigham Hospital, in Boston. For over 40 years he has been a psychiatrist at Brigham and Women’s Hospital and Dana-Farber Cancer Institute, where he is an Associate Professor of Psychiatry at Harvard Medical School. A Distinguished Life Fellow of the American Psychiatric Association, he has received several teaching awards and published numerous papers in the areas of psychosocial oncology, addiction, and the clinical interface between spirituality/religion and psychiatry. He has authored or co-edited 10 books, including Doing the Right Thing: An Approach to Moral Issues in Mental Health Treatment, Depression and the Soul and The Soul of Medicine: Spiritual Perspectives and Clinical Practice. He is the recipient of the APA’s Oskar Pfister Award and is past president of the American Psychiatric Association’s Caucus on Religion, Spirituality and Psychiatry.
Dr. Jamie Ostroff is the Chief, Behavioral Sciences Service and Vice Chair for Research in the Department of Psychiatry & Behavioral Sciences at Memorial Sloan Kettering Cancer Center (MSKCC). She is also Co-Program Leader of MSKCC’s Population Sciences Program and was instrumental in establishing MSKCC’s core facility for measurement of patient-reported outcomes and qualitative research methods (PRO-CEL). She is a clinical health psychologist and behavioral science researcher whose clinical, research and teaching activities focus broadly on the psychological and behavioral issues associated with lung and other tobacco-related cancers. She has built a program of independent research in psychosocial oncology and published 190+ peer-reviewed papers specifically demonstrating her seminal contributions to advancing the assessment and treatment of tobacco dependence in cancer care, reducing lung cancer stigma and advancing understanding of the psychosocial and medical sequelae faced by lung cancer survivors.

She also contributes to collaborative research with many APOS colleagues with shared areas of interest. Dedicated to mentoring trainees and other early stage investigators, Dr. Ostroff serves as the Director of MSKCC’s Psycho-Oncology Research Training Program supported by a T32 Training Grant established by Dr. Jimmie Holland some 38 years ago. Dr. Ostroff demonstrates strong national service as evidenced by her involvement with the NCI/AACR Task Force on Assessment of Tobacco Use, the Expert Panel of the Cancer Centers Cessation Initiative (C3I), the Go2Foundation for Lung Cancer and the American Cancer Society’s National Lung Cancer Roundtable. She has served as a member of NCI study sections, peer reviewer for journals including Psycho-Oncology, and an editorial board member for the Journal of Cancer Survivorship.
The APOS Webinar series was launched in 2011 to provide ongoing professional education activities that further our mission of advancing the science and practice of psychosocial care for people affected by cancer. Our webinars are developed for multidisciplinary healthcare professionals conducting research and/or patient care activities related to psychosocial oncology.

APOS webinars are streamed live with the opportunity to interact directly with our expert speakers. **All webinars are FREE to all APOS Members!** Non-APOS members can register for our webinar programs, at a cost of $45 per webinar. Webinar with CE’s are $40 for APOS Members and $90 for Non-Members.

MENTORING PROGRAM

Interested in Making a Difference?
Become an APOS Mentor today! It’s a great opportunity for members and non-members alike, who are advanced in their careers, to connect with students and early professionals on issues related to professional development, diversity issues, and personal growth.

Why join?
To share experiences, build community, and cultivate relationships within APOS. This is a unique chance for veteran members to share new ideas and lessons learned with a new generation of psychosocial oncology professionals.
