PRESIDENT'S MESSAGE

Dear Colleagues,

Welcome to the 43rd Annual Research Conference of the Midwest Nursing Research Society – the conference that is so exciting we needed two states to host all the science!

Thank you so much to the great states of Kansas and Missouri and specifically our host schools University of Kansas and University of Missouri-Kansas City and the co-host schools, Washburn University, Fort Hays State University, Pittsburg State University, University of Missouri-St. Louis, University of Missouri-Columbus, University of St. Mary, Baker University, and Goldfarb School of Nursing at Barnes-Jewish College. This conference would not have been possible without the generous support of these schools and all the organizations who participated as sponsors, advertisers, and exhibitors.

On behalf of MNRS and all the conference attendees, I would like to extend my appreciation to the Program Planning Committee and volunteers who contributed countless hours and intense dedication to ensuring the success of the conference. Under the leadership of Dr. Marilyn Frenn, the PPC has organized a stimulating conference that will provide opportunities for attendees to hear about cutting-edge research, engage in thoughtful discussions, network with fellow nursing scholars, and learn about emerging research methods.

Highlights of the upcoming conference include paper presentations, poster discussions, and poster presentations that cover all 19 of the MNRS Research Interest Groups. Additionally, we have Dr. Peggy Compton from the University of Pennsylvania School of Nursing, and Dr. Melanie Simpson from The University of Kansas Health System providing the opening and closing keynote presentations focused on the 2019 Conference theme: Nursing Research at the Forefront of Healthcare Crises. MNRS will continue to provide outstanding career development guidance and learning opportunities for nurse scientists and scholars at all levels – from students and junior investigators to mid-career and senior scientists.

We invite you to join us for the 2019 Annual Research Conference and encourage you to take full advantage of opportunities to hear the latest in nursing research and network with old and new colleagues and friends. Don't forget that MNRS members receive discounted registration rates – so be sure your membership is renewed before registering.

We look forward to seeing you in Kansas City and hope you enjoy the great city, the barbeque, and all the benefits of attending the MNRS 43rd Annual Research Conference!

KEYNOTE SPEAKERS

Addiction, Pain and the Opioid Crisis: Exemplar Nursing Research **Thursday, March 28 - 8:30 - 9:45 AM**

Dr. Peggy Compton is an Associate Professor and the van Ameringen Endowed Chair in the Department of Family and Community Health at the University of Pennsylvania School of Nursing, and a Fellow of the American Academy of Nursing. Her areas of clinical expertise are opioids, addiction and pain. She has published extensively in the scientific literature on substance use disorder in chronic pain patients on opioid therapy, and the pain responses of opioid addicts with and without chronic pain. Having worked in several public treatment settings, she is expert in the use of methadone, buprenorphine and naltrexone in the treatment of opioid use disorder. She has served on FDA, SAMHSA and NIH expert panels on prescription opioid abuse, and contributed to position statements from the American Pain Society, College on Problems of Drug Dependence, and the American Society of Pain Management Nurses on pain management for patients with addictive disease. She currently serves as principal investigator on a NIDA-supported grant exploring hyperalgesic responses in individuals undergoing opioid taper.

Competing Healthcare Crises: Chronic Pain and Opioid Misuse **Saturday, March 30 - 10:15 - 11:15 AM**

Melanie Simpson is the Pain Management Team Coordinator at The University of Kansas Health System. She has worked in pain management for over twenty-three years. Dr. Simpson has Bachelor's Degrees in both Nursing and Human Relations, a Master's degree in Health Services and a Doctoral Degree in Health Administration. She is nationally certified in Pain Management, Oncology, Hospice and Palliative Nursing and is a Certified Pain Educator. She is active both locally and nationally in several professional organizations including; American Pain Society, State Pain Policy Advocacy Network, and she is a Past-President of the American Society for Pain Management Nursing. Melanie is the recipient of the 2018 ASPMN Advocacy Award Pain Management.
