MNRS Code of Conduct

Introduction

The Midwest Nursing Research Society (MNRS) is dedicated to providing a safe and productive experience for all participants and attendees at all official MNRS events regardless of sex, race, color, national origin, religion, age, physical or mental disability, perceived disability, ancestry, marital status, sexual orientation, or any other basis protected by federal or pertinent state laws. MNRS does not tolerate discrimination or any form of prohibited harassment and is committed to enforcing this Code of Conduct (the “Code”) at its Annual Meeting or at any other MNRS event. As a professional society, MNRS is committed to providing an atmosphere that encourages the free expression and exchange of scientific and educational ideas. Furthermore, MNRS upholds the philosophy of equal opportunity for and treatment of all meeting participants and staff in any venue.

Scope of Code

MNRS requires compliance with the Code by all meeting participants, staff, guests, and vendors at all official MNRS events, including the annual meeting, committee meetings or other activities that are expressly sponsored or promoted by MNRS, whether held in public or private facilities. This policy is an expression of MNRS’s values and commitment to a safe and productive experience for all participants and attendees at its official events. This policy is not an acknowledgement, admission, or description of MNRS’s legal obligations with respect to any of the subject matters addressed herein, nor does it create any such legal obligations.

Harassment Defined

Prohibited harassment includes verbal, physical, and visual conduct that creates an intimidating, offensive, or hostile environment. Harassing conduct can take many forms and includes, but is not limited to, the following: slurs, epithets, derogatory comments, insults, degrading or obscene words, jokes, demeaning statements, offensive gestures, or displaying derogatory or demeaning pictures, drawings, or cartoons based upon an individual’s sex, race, color, national origin, religion, age, physical or mental disability, perceived disability, ancestry, marital status, sexual orientation, or any other basis protected by federal or pertinent state laws or local ordinances.

Sexually harassing conduct in particular includes all of these prohibited actions, as well as other unwelcome conduct that is sexual in nature, such as unwanted sexual advances; lewd propositions or innuendos; leering; making sexual gestures; making sexually suggestive or graphic comments or engaging in inappropriate sexually-oriented conversation; displaying sexually suggestive objects, graphics, pictures, or posters, whether physically or over the Internet; making or using derogatory comments, epithets, slurs or jokes; the sexual touching or display of one’s own body; or unwanted physical touching or assault, as well as impeding or blocking movements.

Sexually harassing conduct can be by a person of either the same or opposite sex. It is a violation of this policy for males to sexually harass females or other males, and for females to sexually harass males or other females. Conduct that begins as consensual in nature may become harassment if one party withdraws his or her consent. Sexual or other harassment prohibited by this policy is unacceptable and will not be tolerated.

The above list of prohibited behaviors is not a complete rendering of what may be deemed sexual or other harassment prohibited by this policy. It is impossible to define every action or word that could be interpreted as harassment. However, MNRS has a “zero tolerance” policy toward discrimination and all forms of harassment. MNRS reserves the right to discipline meeting participants who engage in any inappropriate conduct, even if it is not specifically referred to or defined in this Code or is not legally actionable as sexual or any other form of harassment.

Prohibited Conduct

Prohibited conduct at MNRS meetings includes, but is not limited to:

- a) harassment based on sex, race, color, personal appearance, national origin, religion, age, physical disability, mental disability, perceived disability, ancestry, marital status, sexual orientation, or any other basis protected by federal or pertinent state laws;
- b) demeaning comments or harassment about a person's professional status, qualifications, or affiliations;
- c) sexual harassment, as defined in Section 3;
- d) abusive conduct that has the purpose or effect of unreasonably interfering with another person's ability to benefit from and enjoy or participate in the meeting, including social events related to the meeting and sponsored by MNRS;
- e) undue or excessive interruption of any event, speaker, or session; and
- f) violence or threats of violence.

Reporting an Incident

Meeting participants or other individuals who witness or experience inappropriate conduct at a MNRS meeting or other official MNRS event, including but not limited to the prohibited conduct described above, should report such conduct immediately to the Executive Director of MNRS, Kelly Braniff at kbraniff@parthenonmgmt.com or (615) 432-0098. If the individual is uncomfortable reporting the conduct to the Executive Director of MNRS for any reason, the individual may report the conduct to the President & CEO of Parthenon Management Group, Sarah Timm at stimm@parthenonmgmt.com or (615) 324-2374. Any individual reporting such conduct is not required or expected to discuss the concern with the alleged offender. Anyone experiencing or witnessing behavior at a MNRS event that is an immediate or serious threat to the safety of those present, or to the public, is advised to locate a house phone and ask for security, or to otherwise contact the authorities for protection.

MNRS cannot address claimed inappropriate conduct or harassment unless the claims are brought to the attention of MNRS leadership. Meeting participants are encouraged to report any incidents of perceived violations of this policy as quickly as they can or otherwise feel safe doing.

MNRS is committed to taking reasonable steps to prevent harassment and other prohibited conduct at its meetings and will make reasonable efforts to promptly and completely address and correct any prohibited conduct that may occur at an official MNRS event. MNRS will keep any investigation of an alleged violation of this policy as confidential as possible.

MNRS can only investigate situations that arise at MNRS meetings or other MNRS-sponsored events. If a meeting participant experiences inappropriate conduct or harassment at the participant's own or another institution, at a place of work, at a research facility, or online but not via MNRS-sponsored channels that individual should contact the appropriate person or department responsible for such things at that particular institution, facility or medium.

Investigation

MNRS will promptly and impartially investigate the facts and circumstances of any claim of inappropriate conduct or harassment under this policy. MNRS will make every effort to keep the reporting individual's concerns confidential and will not deliberately share personal information, other than as necessary to carry out the purpose of investigation. While complete confidentiality cannot be guaranteed, MNRS will keep the investigation and its findings as confidential as possible under the circumstances. During an investigation, MNRS or a designated independent consultant subject to obligations of confidentiality, generally will do the following (as necessary) to

make a determination as to appropriate action:

- a) document the nature of the complaint;
- b) interview the complainant;
- c) conduct further interviews as necessary, such as with witnesses and, at an appropriate time, the alleged offender;
- d) document MNRS's findings regarding the complaint;
- e) document recommended follow-up actions and remedies, if warranted; and
- f) inform the complainant of the basic nature of MNRS's findings.

MNRS will attempt to investigate any complaint or report of a violation of this policy in a prompt and timely manner. Upon completion of the investigation, MNRS will take appropriate corrective measures against any person who has engaged in conduct prohibited by this policy, if MNRS determines such measures are necessary. Such remedial action may include, but is not limited to, the items listed below in Section 7.

Disciplinary Action

If MNRS determines that an individual has engaged in prohibited conduct, MNRS shall determine the appropriate action to be taken, which may include, but is not limited to:

- a) private reprimand;
- b) removal from the Meeting without warning or refund;
- c) implementation of conditions upon attendance at future MNRS Meetings;
- d) restriction from attendance at future MNRS Meetings; or
- e) expulsion from MNRS.

MNRS may, but is not required to, report any incident to proper authorities, including but not limited to law enforcement. MNRS will do so if, in its sole discretion, such reporting is advisable or necessary. If MNRS determines that an individual has engaged in prohibited conduct at a MNRS meeting, and such individual is a MNRS member, MNRS may take disciplinary measures by removing such individual from MNRS membership. Nothing in this policy shall restrict or discourage any individual who experiences or is the target of conduct prohibited by this policy from reporting such conduct to the authorities, to the extent he or she deems such a report advisable or necessary.

Retaliation Is Not Tolerated

Retaliation for complaints of inappropriate conduct or harassment are also considered harassment and will not be tolerated. Retaliatory behavior in connection with MNRS meetings will be investigated in a similar manner to initial complaints.

In addition, the Investment Advisor will keep the Treasurer advised of the impact of any material change to spending policy, investment strategy, or other pertinent information potentially affecting performance of all investments.

Investment Manager Selection and Evaluation Criterion

Investment Manager Selection

In selecting the investment managers for the Long-Term Fund, the Investment Consultant will consider a variety of statistical and non-statistical factors. These factors, measured over a multi-year period, may include the investment manager's investment objectives, performance relative to its index and peer group, risk characteristics, return characteristics, investment style, manager tenure and turnover, style consistency and the degree of correlation with other fund investment managers.

Investment Manager Monitoring and Review

The on-going monitoring of investment options must be a regular and disciplined process. It is the mechanism for revisiting the Investment Manager's selection process and confirming that the criteria originally satisfied remain so, and that an Investment Manager continues to be a valid selection. While frequent change is neither expected nor desirable, the process of monitoring investment performance relative to specified guidelines is an on-going process.

The Investment Consultant, will monitor, on a periodic basis, the same factors identified above under “Investment Manager Selection”. The placement of a manager on a “watch list” may be required if an Investment Manager:

- has a change in manager or analytical staff;
- has experienced style drift;
- has performed unfavorably on an absolute basis relative to its index or peer group over rolling five year periods;
- has performed unfavorably on a risk adjusted basis relative to its index or peer group over rolling five year periods;
- has violated MNRS’s investment policy guidelines;
- has material litigation filed against the firm;
- has material changes in firm ownership structure; or
- has exhibited any other unfavorable factors that the Investment Consultant deem material since the initial selection of the Investment Manager.

Watch list status is expected to last no longer than one quarter and will be used to evaluate the factors that led to the watch list designation. If, at the conclusion of the watch list evaluation, the Investment Consultant has overall satisfaction with the investment manager, no further action is required. If areas of dissatisfaction exist, it is the responsibility of the Investment Consultant to consider taking steps to remedy the deficiency including the removal of the investment manager.

Investment Manager Removal

The Investment Consultant may remove an Investment Manager when it believes such removal is in the best interest of the Long-Term fund, taking into account all relevant factors including, and without limitation, a lack of confidence in the Investment Manager’s ability to:

Achieve performance and risk objectives;

Comply with investment guidelines; or

Maintain a stable organization and retain key relevant investment professionals.

The watch list is not the only route for removing an existing manager. The aforementioned events or conditions, or any other events or conditions of concern identified by the Executive Director, Board of Directors, Finance Committee or the Investment Consultant, such as a change in MNRS investment philosophy or strategy not consistent with that of the Investment Manager or re-balancing or re-allocation, may prompt the immediate removal of an Investment Manager without it being watch listed. Any decision to remove an Investment Manager will be made on an individual basis, and will be made based on quantitative and qualitative review.

Performance Reporting

The MNRS Investment Accounts will be managed on a total return basis. Returns will be compared to:

The Consumer Price Index plus 4%

The Ninety-day Treasury Bill Index plus 3%

Nationally recognized indices measuring the performance of the classes specified in the target asset mix.

Comparisons will show results for the latest quarter, year to date, prior three and prior five years and since inception. The quarterly report will be prepared by the investment consultant and will be presented to the Executive Director.
