

Postcard Presentation Guidelines

- Each postcard presentation session consists of around 5 to 10 presentations.
- Presenters should arrive at least 15 minutes before their session start time to check-in with the moderators.
- Each presenter will have a single electronic slide to give a 5-minute presentation of the key points.
 - This single slide can resemble what a poster would look like with sections for the methods, methods, results, and conclusions.
- Presenters are encouraged to print ~30-50 postcards or ½ sheet of paper for guests to include the title and presenter contact information.
- Discussion at the end of the session will be led by a moderator.
- This format is an excellent networking opportunity and opportunity to provide information on new methodology, recruitment methods, new/exciting research and implementation, or literature review findings.
