

Time	Thursday, June 18, 2020			
7:30	Registration Opens			
8:45	Prospective Latin American Satellite Meeting	1/2 Day Pre-Conference Course (Separate Registration Required) <i>Assessment and Management of Bipolar Disorder During Pregnancy and Postpartum</i>	1/2 Day Pre-Conference Course (Separate Registration Required) <i>Diagnosing, Assessing, and Treating Bipolar Disorder: An Expert's Course for Those New to the Field</i>	
12:00		Break	Break	
12:30		Break	Break	
13:00	Perinatal Satellite Symposia: <i>Optimizing Medication Management for Perinatal Women with Mood Disorders</i>	1/2 Day Pre-Conference Course (Separate Registration Required) <i>A Clinical Approach to Suicide Prevention in Bipolar Disorder</i>	1/2 Day Pre-Conference Course (Separate Registration Required) <i>Essential Guide to Lithium Treatment in Bipolar Disorders: A Practical Course</i>	
14:00				
16:00	Break	Short Break		
16:15		Short Break		
16:30	Opening Ceremony			
17:00	KEYNOTE: David Kupfer and Ellen Frank <i>Past, Present, and Future of ISBD</i>			
17:45	Awards Presentation			
18:15 - 20:30	Welcome Reception			

Time	Friday, June 19, 2020				
7:00			Women's Initiative Session (Tentatively)		
8:30	<i>Aging With Bipolar Disorder: What Do We Know (and Don't Know)?</i>	<i>Longitudinal Remote Mood Monitoring: Challenges and Opportunities</i>	<i>Dividends and Challenges When Implementing Evidence-Based Psychosocial Treatments in Established Clinical Settings: Focus on Youth With Mood Disorders</i>	Samuel Gershon Award Presentations	Rapid Communication 1
10:00	Mid-Morning Break, Exhibition and Posters				
10:30	KEYNOTE: Jan Scott <i>Activity Patterns in Bipolar Disorder, or Bipolar I vs II, Youth BD</i>				
11:00	KEYNOTE: Valerie Taylor <i>Safety and Efficacy of Fecal Microbiota Transplantation in People With Bipolar Disorder</i>				
11:30	KEYNOTE: John Geddes <i>Evidence on Efficacy of Prophylactic Treatment for BD and Caveats About Current Guidelines</i>				
12:00	Plenary Industry Satellite Symposium- Sunovion <i>*Industry Sessions are not included in the main event CME Offering*</i>	Break, Exhibition and Poster Viewing			
13:30	<i>What Can We Learn From Each Other, Lived Experience and Research About Providing Support and Enhancing Wellbeing When People Are Affected by Bipolar Disorder?</i>	<i>Metabolic Perspective on Neurocognition and Illness Progression in Bipolar Disorder</i>	<i>Predominant Polarity: Clinical Significance and Biological Correlates</i>	<i>Infection, Inflammation, and Immune Activation / Modulation in Bipolar Disorder</i>	<i>New Repurposing Drugs for Mood Disorders – Challenges and Evidence</i>
15:00					
15:30	<i>Mental Health Professionals With Bipolar disorder, the Other Side of the Coin</i>	<i>New Approaches to Understanding the Trajectories of Mood Disorders Across the Life Course</i>	<i>Synthesizing Findings from 20 Years of Early Onset Bipolar Disorder Longitudinal studies: The Bipolar Offspring Study (BIOS) and Course and Outcome of Bipolar Youth (COBY)</i>	<i>White Matter Disturbances in Bipolar Disorder: From Neuroimaging to Neuropathology</i>	Rapid Communication 2
17:00	Poster Session I in the Poster Hall				
18:30	ISBD Members Reception				

Saturday, June 20, 2020					
7:15			Brainstorming Session <i>Next Steps in Staging of Bipolar Disorders</i>	Brainstorming Session <i>Actigraphy in Bipolar Disorders: Which Parameters and Which Analyses?</i>	Brainstorming Session <i>Help Your Patients Quit: The State of the Art in Smoking Cessation in Bipolar Disorder</i>
8:15					
8:30	<i>The Impact of Cognitive Difficulties on Interpersonal Relationships, Family, and Work Life – and What We Can Do About Them</i>	<i>Motherhood and Mental Illness - Bipolar Disorder and Postpartum Psychosis</i>	<i>Phenomenological Predictors of Bipolar Disorders or Major Depression and Early Psychopathology among Young Children and Adolescents at High-Risk of Developing Mood Disorders</i>	Is Mitochondrial Dysfunction a Key Driver of Neuroprogression?	Rapid Communication 3
10:00	Mid-Morning Break, Exhibition and Posters				
10:30	Keynote: Roger McIntyre <i>The Metastasis of Inflammation and Obesity to the Brain: Implications for Disease Modeling and Novel Treatment Avenues in Mood Disorders</i>				
11:00	KEYNOTE: Richard Weinshilboum <i>Pharmaco-omics of Major Depression and Bipolar Disorder</i>				
11:30	KEYNOTE: John Kelsoe <i>Detection of Lithium Response From Neurons of Bipolar Patients</i>				
12:00	Plenary Industry Satellite Symposium- PsychU <i>*Industry Sessions are not included in the main event CME Offering*</i>	Break, Exhibition and Poster Viewing			
13:30	<i>Suicide Prevention: Approaches to Enhancing Resilience as a Core Aspect of Care across Different Settings</i>	<i>ISBD Vascular Task Force Update I: Relation to Course of Illness and Opportunities for Intervention</i>	<i>New Perspectives on Variability and Longitudinal Monitoring in Bipolar Disorder</i>	<i>ENIGMA and the PGC: Large-Scale Studies of Bipolar Brain Structure, Function and Genetics</i>	<i>Extending the Reach of Interpersonal and Social Rhythm Therapy: Updates From Around the Globe</i>
15:00					
15:30	<i>Creativity and Bipolar disorder: Lived Experience Stories of Artistic Productivity and Acceptance</i>	<i>Affective Cognition Impairments in Bipolar Disorder: Pattern and Severity, Association With Neuropsychological and Social Function – an Update from the ISBD Targeting Cognition Task Force</i>	<i>Bipolar Disorder Prevention: Where Are We Heading?</i>	<i>ISBD Vascular Task Force Update II: Insights Regarding Bipolar Disorder From Vascular-Related Imaging</i>	Rapid Communication 4
17:00	Poster Session II in the Poster Hall				

Time	Sunday , June 21, 2020					
7:15			Brainstorming Session Manic-Depressive Illness Versus Bipolar Disorder: Toward a Post-DSM Nosology	Brainstorming Session <i>Developing Academic Careers in Mood Disorder Research: Female-Specific Challenges and Solutions</i>	Brainstorming Session <i>Neurostimulation for Bipolar Depression: Transcranial Magnetic Stimulation (TMS) and Vagus Nerve Stimulation (VNS)</i>	Advocacy Program
8:15						
8:30	<i>Understanding Bipolar Disorder on an International Scale: Global Consortia on Bipolar Disorder</i>	<i>Technology-Enhanced Mood Monitoring: What We Can Learn From intensive, Longitudinal Assessment</i>	<i>Irritability in Adults: Mechanistic and Clinical Implications of Irritable Mood and Disruptive Behavior</i>	<i>Neuroinflammatory Markers in Bipolar Disorders: Biomarkers and Treatment Approaches</i>	<i>Canadian Network for Mood and Anxiety Treatments (CANMAT) Update of Novel Treatments and Approaches for Bipolar Disorder</i>	
10:00	Mid-Morning Break					
10:30	KEYNOTE: Ruth Ross <i>Cannabinoid Pharmacology & Toxicology – Past, Present, Future</i>					
11:00	KEYNOTE: Holly Swartz <i>Psychotherapy for Bipolar II Disorder: An Overlooked Treatment Option</i>					
11:30	ExE KEYNOTE: Jane Pearson <i>Strategy and Deliverables From the NIH strategic Focus for Suicide Prevention</i>					
12:00	Break					
12:15	<i>Pharmacogenomics of Lithium and Mood Stabilizing Anticonvulsants: Increasing Precision Medicine in the Bipolar Pharmacopoeia</i>	<i>Exploring the Comorbidity Between Migraine and Mood Disorders: Data From Three Population-Based Cohorts of Adults and Youth</i>	<i>Update on Multimodal Neuroimaging From the ISBD Pediatric Bipolar Disorder Task Force</i>	<i>The Neurobiology of Cognition in Bipolar Disorder: Leveraging Variability Across Diverse Modalities</i>	<i>Circadian Neurobiology and Bipolar Disorders: An ISBD Task Force Symposium on the Chronobiology, Chronobiologic Assessment, and Chronotherapeutic Treatment of Bipolar Disorders</i>	Advocacy Program Cont'd
13:45	Adjourn
