About ISBD

Our Mission

The mission of the International Society for Bipolar Disorders (ISBD) is to foster international collaboration in education, research and clinical care to improve the lives of those with bipolar disorder and related conditions. The intent of this collaboration is to advance the treatment of bipolar disorders and to improve outcomes and the quality of life for those living with bipolar disorder and their caregivers.

Who We Are

ISBD was created in response to further need for: awareness, education and research.

ISBD is a major source for emerging research and clinical data on bipolar disorders and is the only bipolar-focused, research-oriented Society working to bring this data to patients, families, and mental health professionals working on the front lines of bipolar care.

The ISBD has an elected board representing 7 countries and over 500 members representing 48 countries including 26 international chapters.

Why Sponsor?

As a Supporting Corporation, you will not only receive a number of registrations for the 2023 ISBD Conference, but also a number of memberships in the Society with access to ISBD Members Only content and resources through the ISBD Society website, including an online subscription to *Bipolar Disorders*, the official journal of the ISBD.

In addition to Supporting Corporation opportunities, ISBD is pleased to offer additional sponsorship opportunities specifically for the in-person conference.

ISBD 2023 is the leading international mood disorders conference focusing on bipolar disorders, major depressive disorders and other common co-morbid psychiatric conditions.

A unique program featuring interactive workshops, keynote lectures and debates from some of the leading experts in the field, and a diverse array of parallel symposia arranged in tracks by topic

ISBD 2023 offers companies innovative opportunities for networking, educational content, exhibition, and brand exposure that will allow them to reach over 700 experts in the field of bipolar and mood disorders.

Join other international scientists and clinicians and be a part of this unique opportunity to share cutting-edge findings in the field.
