ABOUT CMSA™

Founded in 1990, the Case Management Society of America (CMSA) has grown to become the leading association supporting case managers across the entire healthcare continuum.

Its leadership programs, educational forums, and breadth of tools and resources enable case management professionals to ensure more positive outcomes for their patients' healthcare needs.

CMSA is a community of professionals who are passionate about the care and services provided to patients and clients in critical need of support; a community in constant pursuit of excellence.

CMSA welcomes the opportunity to partner with groups who not only value the practice of case management but also envision a future where professional collaboration will lead to a synergy of efforts in health policy, education, leadership, technology, advocacy, and the future of health care in America.

CMSA Today™ is the cornerstone of CMSA communications – incorporating print and digital publications, as well as a digital magazine website – all designed to deliver the latest news and information from CMSA and the care management industry.

What is a case manager ?

Case managers are healthcare professionals who serve as patient advocates to support, guide and coordinate care for patients, families and caregivers as they navigate their health and wellness journeys.

(2022 Case Management Standards of Practice - Consumer Definition)

WHY PARTNER *with* CMSA™?

Companies that become CMSA Partners recognize the importance of case managers in today's healthcare environment and the influence case managers have in helping to provide services to their patients. By joining CMSA as a Partner, your organization will have unique opportunities to connect with CMSA's membership, web visitors and event attendees.
