

## **June 2025 Letter Template for Contacting Your Senators**

Dear Senator \_\_\_\_:

I am aware that the Senate will soon consider the House-passed reconciliation bill, and that the Congressional Budget Office (CBO) has estimated that provisions in this bill will result in 8.6 million Americans losing access to health insurance.

As a case manager – someone on the front lines of helping patients navigate their health care journey – I urge you to reject changes to Medicaid that will result in millions of senior citizens, children, and working families losing access to coverage. Cuts to Medicaid will have terrible consequences for our hospitals and our health care system, but most importantly for patients.

Please use your position to demand changes to the bill to protect coverage for these vulnerable Americans.

Sincerely,

/signature/
