

2025 Flux Pre-Conference Workshop Submission Guidelines

The Society for Developmental Cognitive Neuroscience

Dublin, Ireland, 04 September - 06 September 2025

www.fluxsociety.org

Overview

One of Flux's objectives is to provide educational resources focused primarily on graduate students and post-docs. Flux workshops offer interactive opportunities for researchers to learn about additional methods, approaches, cognitive abilities, populations, etc. Workshops could also offer professional and career development topics. Flux members are invited to submit proposals for workshops adhering to these educational objectives. The workshops take place on the day before the Congress and can be either a half-day (4 hours) or a full-day (8 hours) in length.

Workshop presenters have the opportunity to submit a paper (one for each workshop) to the Flux Society's journal, Developmental Cognitive Neuroscience, as a part of the conference special issue published each year following the Flux Annual Congress.

The theme of the conference this year is "Back to Basics: Components & Mechanisms of Neurocognitive Development".

Pre-Conference Workshop Submission Deadlines

Abstract submission open - Monday, 06 January 2025

Abstract submission close - Monday, 03 February 2025

IMPORTANT: Confirmations of accepted abstracts will be issued late-February.

Required Submission Questions

- Prepare a title (255 characters including spaces maximum).
- Select a category that most closely aligns with your abstract.
- Provide any workshop sponsor information.
- Submit a proposal including the following and not exceed 4,000 characters including spaces:
 - A brief description of the educational goals of the workshop.
 - A brief description of the potential audience of the workshop.
 - An estimated expected number of participants along with a maximum number of participants to be allowed.
 - An abstract describing the material the workshop will cover.
 - A list of the speakers and their institutions/affiliations.
- Submit the above information in Roman Numeral outline format. This should be a 1-2 page proposal describing all participants in the workshop, what information would be covered, and any specific interactive aspects. Include the number of minutes you plan to spend on each outline section.
- Additionally, please select your preferred room layout for the workshop. The available configurations are:
 - Theater (rows of chairs) - holds 110 people
 - Classroom (long tables with chairs) - holds 72 people
 - Rounds (round tables with 10 chairs each) - holds 80 people

Submission Categories

- Attention
- Brain connectivity
- Brain function
- Brain structure
- Clinical populations
- Education
- Environment (stress, SES)
- Executive functioning
- Language
- Learning
- Mechanisms (hormones, neurotransmitter, physiology)
- Memory
- Networks
- Rewards/Motivation
- Socioemotional processing

Pre-Conference Workshops held on 03 September 2025
