

INIA-Neuroimmune RSA Satellite Meeting

Saturday June 20, 2026
Grand Hyatt San Antonio

The Integrative Neuroscience Initiative on Alcoholism (INIA) is a consortium funded by the National Institute of Alcohol Abuse and Alcoholism at the National Institutes of Health. INIA-Neuroimmune is one of two INIA consortia with researchers across the US and France who study immune pathways in the brain, combining novel genomic and systems-level analyses to identify new strategies for treatment of alcohol use disorder.

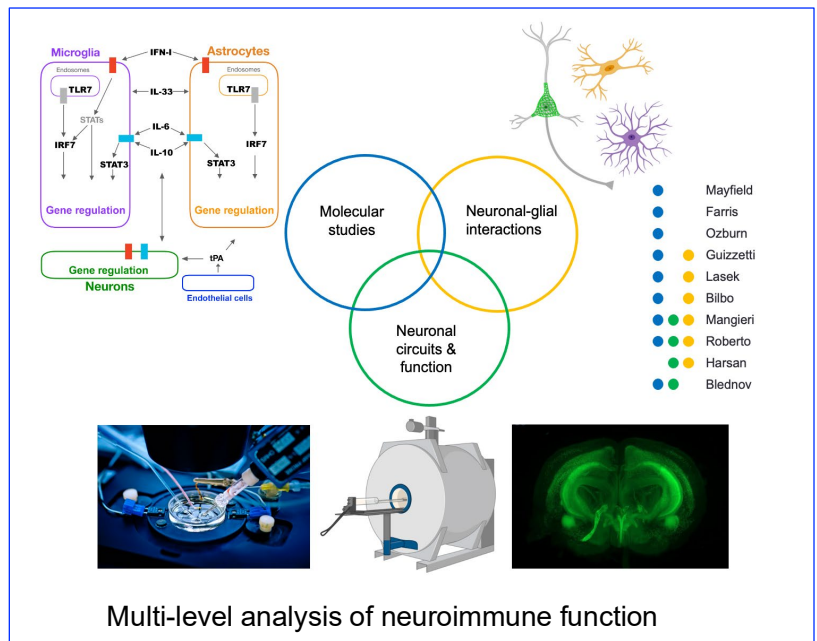

Please check the RSA website for finalized room locations: [49th Annual RSA Scientific Meeting](#)

8:00 am – 12:00 pm

Adaptations in neuroimmune pathways that promote and sustain excessive alcohol consumption.

Data presentations from INIA-Neuroimmune projects will highlight investigations into:

- ◆ Neuroimmune genomics
- ◆ Neurons, glia, & the extracellular matrix
- ◆ Neuroimmune signal transduction
- ◆ Blood brain barrier disruption
- ◆ Brain connectivity networks

1:00 pm – 3:00 pm

INIA late-breaking research findings (combined INIAstress and INIANeuroimmune presentation)

3:00 pm – 4:30 pm

INIA Consortia Junior Scientists Poster Presentation

Join us for science and refreshments and meet a new generation of alcohol neuroscientists.

Please RSVP by May 1st

Please use this link if you plan to attend. Your RSVP is important for planning refreshments and room set up.
